

# Quiz App

## Header

"Stupid Easy Questions Quiz"

Question number (out of 5)

Current Score (out of 5)

## Body

Current Question

4 buttons with questions following it

Submit button

After a click and a submit, a popup that tells you whether or not you got the answer correct, and if incorrect, provide textual feedback

Submit button disappears, creating a next button instead

Whole process repeats itself until no more question remain

At the end, the score is displayed with an option to restart the quiz
